

PRIMARY WARNING LIGHT APPLICATION GUIDE

- Ideal
- Acceptable
- Occasional
- Not suitable

Engineered and tested in Australia to suit local market conditions with a product for every price point and application as well as features matched to market needs:

- Durability
- Performance
- Compliance
- Versatility

RANGE

GUARDIAN L.E.D STROBES

Made for materials handling and light commercial applications, Guardian strobes are synonymous with high reliability and economical pricing. The ever-growing range offers exceptional durability and performance in a range of sizes and mounting options.

OPTIMAX L.E.D BEACONS

Narva's Optimax L.E.D beacons provide superior L.E.D performance at a halogen price. With 5 mounting options and Australia's first dual-colour L.E.D rotating beacon, the Optimax L.E.D beacon range is ideally suited to municipal and agricultural applications.

85660A

AEROTECH® L.E.D STROBES

AeroTech® L.E.D strobes are the brightest, most visible strobes for their size. With three different heights and five mounting options, there is an AeroTech® strobe for all light commercial, and construction applications.

PULSE II L.E.D STROBES

Narva's popular 'Pulse' L.E.D strobe was designed to thrive in the harshest industrial and mining applications. The new and improved Pulse II is not only ideal for industrial and above ground mining applications, but also for below ground mining applications.

85246A-1

AEROMAX L.E.D BEACONS

Incorporating precision engineering with the latest L.E.D technology, Aeromax beacons produce a brilliant light output that meets Class 1 approvals. Built with the most robust materials, the Aeromax range suits a variety of applications but comes into its own in heavy duty environments such as commercial, construction, industrial and mining.

85470A

AEROTECH® L.E.D LIGHT BOXES

The revolutionary AeroTech® light box range is the brightest in the Narva range of primary warning lights. The range features 3 different size light boxes which can suit everything from light commercial up to transport, construction, and mining applications.
